

Rowbury Mass^{ts} Sunday evening
Dear Dr May

I have been here a week but unfortunately not quite well. On Monday last I went over to see Mr Wilson with the intention calling at the garden but feeling unequal to the walk came directly back.

I was getting on satisfactorily until yesterday when my kind friends here insisted upon taking me to a Photographer in whose cold rooms I encountered another child with fever. Thus much explanation. Now if I feel as if I could venture it is my purpose to leave for home on Wednesday & failing in that I hope to see you on some day soon after.

Truly yours
A McChapman
